

Earth Day Every Day

You Can Be Environmentally-Friendly With Your Pet

April 2021

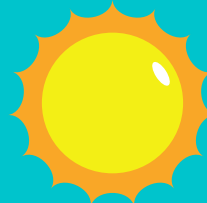

Reduce, Recycle, and Donate

Before you throw away old towels, blankets, or extra food/treats, email us at sccanimalfund@cep.sccgov.org. If you have something and unsure we could use it, email us a picture and we'll let you know. Your gently-used items can go a long way in making shelter pets very happy.

Go Natural & Soak up the Sun

Opt for biodegradable doggie bags over the plastic kind, choosing kitty litter made of plant-based materials like wheat or wood chips, and looking for pet products made from recycled plastics and natural materials.

Spring means more time outdoors, make the most of it! Save energy by letting your pet air dry in the sun after a bath, or walk to the dog park or community garden instead of driving there. Be sure to keep your pet hydrated at all times.

Use Less

Clean up messes with rags instead of paper towels or buy pet supplies in bulk—you'll make fewer trips to the store and cut down on discarded packaging.

You and your pet can make every day Earth Day! Visit us at www.aplace4animals.com.
